ADOPTS NUTMEG LEAGUE SCHEDULE

Connecticut Baseball Clubs Getting Ready For Play—All But Two Have Their \$2,000 Bond Up.

New Haven, Conn., March 14.—The schedule of the Connecticut Baseball league was adopted at a meeting of the directors here this afternoon. The meeting lasted but 20 minutes, and the vote to adopt the schedule was unanimous. The season opens April 26 and closes September 15. The schedule calls for each team to play 13 games with the other teams.

One sale was announced, that of First baseman Frank Gyll by Cameron of New Haven to the New Britain team. The price was not stated.

President O'Rourke announced that all but the New Britain and Bridgeport managements had filed the \$2,000 bond required, which is to be forfeited if the team quits before the end of the season. The two managements have until April 1st to fulfill their obligations.

FINISH FIGHTS PROHIBITED NOW IN FRANCE

New Boxing Regulations Follow Death of Pugilist from Effects of a Blow.

Paris, March 14.—New regulations have been drawn up by the boxing federation on instructions from the police, as the outcome of the death of the French boxer, Raphael Bell, who died from the effects of a blow in a contest at Paris on March 5. The new rules prohibit finish fights, necessitate the presence of a doctor, bar out boxers under 21 years of age and provide that the ring shall be covered with thick felt and that gloves weighing from four to six ounces shall be used.

Jack Monty's Second This Week

Jack Monty's second bout this week is to be at Balke tonight, when he goes against young Buster of Pawtucket in an eight round bout that is the feature of the card. Young Buster is of the Ethiopian persuasion and is expected to make some stiff going for Monty. Kid Swift and Young Slaughter Houck will mix for 8 rounds in the semi-final, and Fournier vs. an unknown are to appear in the curtain raiser.

Broad Street School Postpones

The Broad Street school postponed their game with the Altar Boys, but would like to take them on for Friday afternoon. The game is postponed because of the following: Connahan, 6; Riley, 2; Maynard, 15; Pierce, 20; Sayles, 25; Wilson, 35; Ellis, 15; Capt. Rainford, 4; Jake Buddieka, 15. Send all challenges to Capt. Rainford. He owns the team.

Chance to Play the Clippers

Having cleaned up everything in the 115 pound class in basketball until their championship seems fairly established, the Clippers are signing for more basketball teams to conquer and more games to play. They challenge anything under the broad canopy of heaven that is in their weight division.

First Time on New Haven Harbor

New Haven, Conn., March 14.—Two Yale 'varsity' eight were out on the harbor for the first time this season. A two mile race was given each boat, and the other candidates were sent out in pair oared.

FINANCIAL AND COMMERCIAL.

BURST OF ACTIVITY.
Market Brightens Up in Last Hour, After Day of Dullness.

New York, March 14.—For the greater part of today's session on the stock exchange business was dull and prices irregular, except for manipulation in some of the minor specialties and low priced issues. In the last hour, however, the market reversed its position and broadened out under lead of the speculative favorites, some of which went to a new high level for the present movement, while Annihilated Copper sold at its highest price in considerably over a year. There was no news to account for the sudden change of sentiment, other than the prospects of a general advance in prices of iron and steel products and encouraging advices dealing with crop conditions. The general labor situation at home and abroad was without material change, except for some betterment in the New England mill towns. It is not unlikely that the agreement of the senate finance committee to report adversely on the houses steel and metal schedule also was a helpful factor. Activity was maintained until the end, the business of the last hour almost exceeding that of the balance of the session, with closing prices at or near the top.

In connection with the further rise of the specialties there were rumors of increased dividend disbursements, but for the most part these were accepted with reserve. It was well known that some of the minor industrial companies are in better shape than a year ago, while others are in far less satisfactory condition. This was demonstrated in the annual report of the Railway Steel Spring company for 1911, which disclosed a large falling off in earnings by reason of railroad curtailments during that uncertain period. Officials of the company were frank to say that the outlook for 1912 is none too favorable. There were again specific reasons for the further advance of such stocks as in the Harvester, the copper and American Smelting. Semi-official statements indicate that Harvester's disintegration will soon be announced, and the copper industry continues to work in the direction of higher prices for the metal. Respecting Smelter and affiliated shares, a statement attributed to the attorney general at Washington, that no anti-trust proceedings are contemplated, was probably a favorable influence, increased strength in American Telephone and Telegraph was concurrent with reports of a demand for the stock in Paris, where it is listed on the Bourse. Concurrent movements in the Rock Island issues and American Can, common and preferred, which are controlled by the same interests, excited some comment. The strength of the Harriman was naturally associated with an optimistic interview issued by the chief executive of that system of railroads.

Bonds were active, but reflected little of the stock market strength except in Erie. Total sales, par value, \$3,400,000. United States government fours advanced 1-8 per cent. on call.
